

Powered by Nature - The Role of Renewable Energy in achieving Irelands Climate Action Targets

SMARTrenew Seminar@LYIT Green Day

PROGRAMME

Letterkenny Institute of Technology, Thursday 28th November

9.30 – 9.35 LYIT Welcome Address

9.35 – 9.45 Nick Timmons, Lead Partner SMARTrenew, PI WiSAR Lab, LyIT

“Introduction to Northern Periphery and Arctic (NPA) Interreg project SMARTrenew”

9.45 – 10.05 Alan Ryan, Programme Manager SEAI, Ireland

“Irelands Climate Action Plan, policy on the targets, how smart renewable energy technology will help achieve them”

10.05 – 10.25 Ragnar Ásmundsson, HeatRD, Iceland

"Renewable energy utilization in Iceland with focus on geothermal and future deep drilling opportunities. Potential for ocean heat utilization in the Arctic region, linking to the SMARTrenew project"

10.25 – 10.55 Eddie McGolderick, Power On technologies, N. Ireland

"Smart Battery Storage Systems to enable management and control of energy consumption and production"

11.00 – 11.30 Coffee and networking

11.30 – 11.50 TBC

11.50 – 12.35 Magda Kowalska, PlanEnergi, Denmark

“Danish and European perspective on renewable energy services and innovations. In particular innovation around the renewable energy mix and heat and energy storage. Technical and social solutions to alleviate climate change, national and European climate action initiatives.”

12.35 – 13.20 Panel Discussion

“Q & A session with all our speakers”

13.30 Lunch
